Fantasia® Zonal Geranium

Medium vigor, dark leaf.
Dark leaves offer superb contrast to bright blooms.
Excellent uniformity for more plants per sq. ft. and optimum shipping density.
Targeted range of core and novelty colors simplifies selection.
Best suited to 5-in. (13-cm) and larger pots and hanging baskets.

A bright, exciting new color for the series in a color class that does not exist in zonal geraniums.

After initial rehydration, careful misting is required to optimize callus and root initiation. Mature leaves should show slight wilting at midday and regain turgor in the late afternoon under ideal mist conditions. Leaf petiole wilting indicates undermisting. Overmisting leads to Botrytis. Remove flower buds at transplanting.
