Bee Alive Bidens

PGR is generally not needed, as

it is genetically compact. Bee Alive responds well to B-Nine applications at rates below

2,500 ppm.

shape.

Controlled habit is ideal for small pots up to hanging baskets. Easy production for retail. Exciting novelty color and pattern for Spring and Fall. Great color that can be produced during the heat of Summer for Fall sales – also works in Fall mixed combos! Flowers attract pollinators, like bees and butterflies.
