

## Sun Drop Compact Double Yellow

Smaller version of Sun Drop Double Yellow.  
 Perfect for small pot production.  
 Plays nice in mixed containers.  
 Best for the southern region.  
 Double blooms, a better habit and more saturated yellow than competitors.  
 Culture and timing are the same as Sun Drop Compact.

### General & Information

**Height:** 8-10" (20-25cm) **Spread:** 12" (30cm) **Exposure:** Sun

### Propagation Guide

| Tray Sizes<br>(cells/tray): | Rooting<br>Hormone: | Average Days with<br>Mist: | Pinch:<br>Yes | Average Propagation Time<br>(weeks): | Comments:                                      |
|-----------------------------|---------------------|----------------------------|---------------|--------------------------------------|--|
| 32, 50, 72, 84, 105         | No                  | 6-9                        |               | 3-4                                  | Reduce and eliminate mist as soon as possible. |
