

- Dynamo is the powerhouse among zonal geraniums: all the key colors you need in a uniform series.
- Matches for habit, flower timing and branching to ship all at once.
- Powerful first flush of color with more continuous blooms per plant.
- It has big, bright flowers and crisp, medium green leaves.
- The ultimate geranium for garden beds and large containers.

General & Information

Propagation Guide

Tray Sizes Rooting Average Pinch: Average (cells/tray): Hormone: Days with No Propagation See Optional Mist: Time (weeks): Comments 9-12 3-4

Comments:

Stick immediately upon arrival. Geraniums are best rooted in media in strip form to allow for maximum airflow and avoid foliage overlap. After initial rehydration, careful misting is required to optimize callus and root initiation. Mature leaves should show slight wilting at midday and regain turgor in the late afternoon under ideal mist conditions. Leaf petiole wilting indicates undermisting. Overmisting leads to Botrytis. Remove flower buds at transplanting.
