

- Dynamo is the powerhouse among zonal geraniums: all the key colors you need in a uniform series.
- Matches for habit, flower timing and branching to ship all at once.
- Powerful first flush of color with more continuous blooms per plant.
- It has big, bright flowers and crisp, medium green leaves.
- The ultimate geranium for garden beds and large containers.

Bright bicolor blooms with superior garden performance when compared to other medium green-leaved zonal geraniums.

#### General & Information

Height: 12-14" (30-36cm) Spread: 12-14" (30-36cm) Exposure: Sun

#### Propagation Guide

Tray Sizes (cells/tray):	Rooting Hormone: Optional	Average Days with Mist: 9-12	Pinch: No	Average Propagation Time (weeks): 3-4	Comments:
See Comments					Stick immediately upon arrival. Geraniums are best rooted in media in strip form to allow for maximum airflow and avoid foliage overlap. After initial rehydration, careful misting is required to optimize callus and root initiation. Mature leaves should show slight wilting at midday and regain turgor in the late afternoon under ideal mist conditions. Leaf petiole wilting indicates undermisting. Overmisting leads to Botrytis. Remove flower buds at transplanting.

#### Finishing

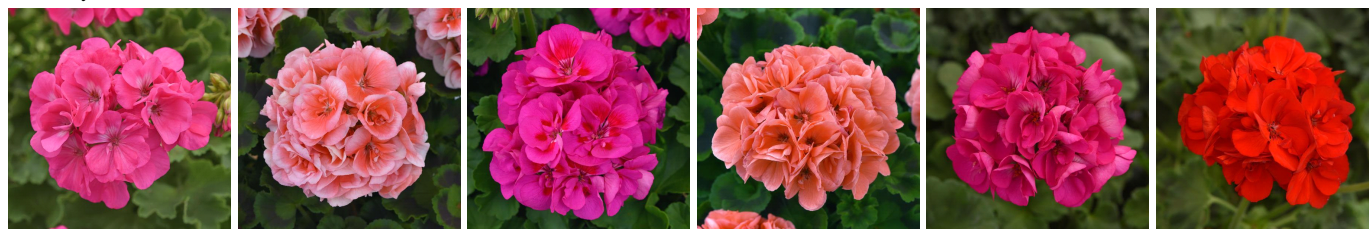

Soil pH: 6.2-6.6	Light Levels: 3,500-6,000	Temperature Day: 65-76°F (18-24°C)	Temperature Night: 62-67°F (17-19°C)	Fertilization (ppm N): 225-300	No. of Pinches: 0	Plant Growth Regulators (S) = spray / (D) = drench: Chlormequat chloride(S) 750-1,000 ppm to control growth; Florel(S) 200-300 ppm to improve branching.	Pests: Fungus gnats, thrips, aphids, mites	Diseases: Botrytis, Pythium, Xanthomonas	Comments: Keep foliage dry. Provide good air circulation.
