

# Fantasia®

Dark leaves offer superb contrast to bright blooms.  
Excellent uniformity for more plants per sq. ft. and optimum shipping density.  
Targeted range of core and novelty colors simplifies selection.  
Best suited to 5-in. (13-cm) and larger pots and hanging baskets.  
Available out of our state-of-the-art YecaFlora farm in Mexico, with trucking to the U.S. border.

Adds a new color to the series that is a truer blue than the competition.

After initial rehydration, careful misting is required to optimize callus and root initiation. Mature leaves should show slight wilting at midday and regain turgor in the late afternoon under ideal mist conditions. Leaf petiole wilting indicates undermisting. Overmisting leads to Botrytis. Remove flower buds at transplanting.
