

# Little Lucky™

Uniform across all colors; great for bench runs and pot-tight production.  
Up to 3 weeks earlier than other compact lantanas.  
Low-maintenance varieties have long flowering into Summer with low seed set.  
Across all colors of Little Lucky Lantana, the simple growing solution is to pinch, with no PGRs.  
Perfect for 4.5-in. (11-cm) programs.

Soft purple clusters feature sunny yellow highlights.

Apply preventative fungicide spray after sticking. |   |
| Finishing   |                           |                         |                                      |                                |                        |   |  |                              |  |   |
| <b>Soil pH:</b>                                   | <b>Light Levels (fc):</b> | <b>Temperature Day:</b> | <b>Temperature Night:</b>            | <b>Fertilization (ppm N):</b>  | <b>No. of Pinches:</b> | <b>Plant Growth Regulators (S) = spray / (D) = drench:</b>  |  | <b>Pests:</b>                | <b>Diseases:</b>   | <b>Comments:</b>  |
| 5.8-6.2   | 5,000-10,000              | 74-85°F (23-29° C)      | 62-67°F (17-19° C)                   | 225-300                        | 1-3                    | Lantana is responsive to a daminozide 2,500-5,000 ppm and chlormequat chloride 1,000-1,500 ppm tank mix(S), as well as ethephon(S) 300-400 ppm, paclobutrazol(S) 20-40 ppm and uniconazole(S) 10-20 ppm. Little Lucky should not need growth regulators due to its naturally compact habit. |  | Whitefly, leafminers, aphids | Root rot   | Allow plants to dry regularly between waterings. Pinch as needed to shape. Feeding at recommended levels will promote vigorous plants that will continue to actively grow and flower. |
