

Bee's Knees

Bee's Knees is filled with lush blooms and puts on a high-impact show all season long with very little attention. It brings the most intense yellow petunia to the market, along with the best performance! This variety holds its yellow color better than any other yellow petunia. It features medium green foliage and outstanding branching. Versatile, works well in containers and the landscape.

General & Information

Height: 8-10" (20-25cm) **Spread:** 16-22" (41-56cm) **Exposure:** Sun

Propagation Guide

| Tray Sizes (cells/tray): | Rooting Hormone: | Average Days with Mist: | Pinch: No | Average Propagation Time (weeks): | Comments: |
|-----------------------------|---------------------|----------------------------|--------------|--------------------------------------|--|
| 50, 72, 84, 105 | No | 6-9 | | 3-4 | Avoid stretch by moving crop to cooler air temperature in second and third weeks of propagation. Transplant on time. |

Finishing

| Soil pH: | Light Levels (fc): | Temperature Day: | Temperature Night: | Fertilization (ppm N): | No. of Pinches: | Plant Growth Regulators (S) = spray / (D) = drench: | Pests: | Diseases: | Comments: |
|-------------|--------------------------|-----------------------|-----------------------|---------------------------|--------------------|--|------------------------------|--|---|
| 5.4- 5.8 | 5,000- 8,000 | 59-76°F (15-24° C) | 53-61°F (12-16° C) | 225-300 | 0-1 | B-Nine(S) 1,500-2,500 ppm, applied 2-4 times, can be used to control habit early. Paclobutrazol(D) 0.25-1.0 ppm applied as crop matures will control final height but not delay flowering or reduce flower size. | Whitefly, thrips, leafminers | Botrytis, Root rot, Tobacco Mosaic Virus | Cool temperatures and high light will reduce need for PGRs. Monitor regularly for high pH and possible iron deficiency. |

Crop Time

| 4- to 5-inch (10- to 13-cm) Pots, Quarts : | 6-inch (15-cm) Pots, Gallons: | 10- to 12-inch (25- to 30-cm) Tubs or Baskets: |
|--|-------------------------------|--|
| 1 ppp, 5-7 weeks | 1-2 ppp, 6-8 weeks | 3-5 ppp, 8-11 weeks |

NOTE: Growers should use the information presented here as guidelines only. Ball FloraPlant recommends that growers conduct a trial of products under their own conditions. Crop times will vary depending on the climate, location, time of year, and greenhouse environmental conditions. It is the responsibility of the grower to read and follow all the current label directions relating to the products. Nothing herein shall be deemed a warranty or guaranty by Ball FloraPlant of any products listed herein. Ball FloraPlant's terms and conditions of sale shall apply to all products listed herein.
