SolarPower™

Ball Flora Plant.

Series features heart and cut-shaped leaf varieties! Densely branched SolarPower holds its shape and color in the landscape and mixed combos all Summer long, and it works well with companion plants. Medium vigor and a well-branched habit.

Most efficient in production compared to competition. SolarPower's tidy habit allows for more plants per rack at retail. Best for gallon containers, 10 to 12-in. (25 to 30-cm) hanging baskets, mixed containers and landscapes. A small-pot solution for northern regions.

Offers an excellent mounded habit with a very clean, true heartshaped leaf. The deep black coloration stays true all Summer long, and in Spring conditions, early growth is deep purple.
