

EnduraScape™

The first verbenas that's hardy through the hottest days of Summer and can take the cold down to the low teens, and still rebloom in Spring, bringing lasting color to landscapes all season long. EnduraScape revs up the color with 11 high-octane varieties. Superior branching: finished product has a full habit with a high bloom count in gallon containers. Excellent powdery mildew resistance.

Adds a novelty to the series with a bright pink flower and white edges.
